## INTERNATIONAL SCHOOL OF MILAN

This is not just a school; it is a stimulating, collaborative environment where children and young people are guided, with proper consideration for their individual needs and characters, towards the achievement of high-ranking academic goals.

ISM offers a study experience and a life experience with an international dimension. Growing up in a context like this is a stimulus to the development of the skills, attitudes and conduct necessary to measure up to an increasingly globalized world. For each phase of academic life, ISM creates a balanced mixture between new and traditional abilities, enabling its students to develop all the skills and capacities needed to face up to future challenges.

The International School of Milan was the first school in Italy to be officially authorized to use all three IB programmes: **International Baccalaureate – Primary Years, Middle Years and Diploma**. ISM is still the only school in Milan offering all the IB programmes. Its students can therefore attend an uninterrupted academic pathway from the age of 3 to the age of 19.

The academic results achieved in universities throughout the world by ISM students with IB diplomas are the best possible testimony to the quality of the programmes adopted.

## INTERNATIONAL LINGUISTIC LYCEUM

The “Liceo Linguistico Internazionale Oxford” is a **scuola paritaria** [a school recognized by the Italian Ministry of Education as equivalent to an Italian State school] resulting from a merger between the “Liceo Europeo Oxford” and the “Liceo Linguistico Internazionale”, which have been operating in Milan for over 40 years. The school is part of the ISE (International School of Europe) Group and it is the mouthpiece for an innovative academic concept. It goes beyond the traditional disciplines and enables its students to acquire knowledge and skills in a **European perspective**.

This modern outlook means that its students can easily take up places in foreign universities since it ensures a high basic culture and enables them to use foreign languages in a practical manner. The Oxford International Linguistic Lyceum’s study plan is enriched by a programme of **preparation for international certificates** recognized in university and professional fields (First, Toefl, Delf, Zertifikat, Dele and ECDL).

## OXFORD GROUP

The Oxford Group can boast long and consolidated experience in the sector of foreign language teaching and in specific training. It offers a **wide range of courses and language services** to meet every study requirement and to achieve planned goals in employment and academic contexts. Oxford Group® organizes courses for students of all ages, for groups and individuals, in standard and specialized language (Business, Marketing, Finance), as well as preparation for **international certificates**, such as the Cambridge ESOL, Trinity, TOEIC, PTE General and Young Learners® and LCCI examinations.

Oxford Group® is also an authorized and recognized examination centre.

## INTERNATIONAL SCHOOL OF MONZA

For over 35 years the International School of Monza has offered educational programmes based on the unique value of the person and its potential to develop and enrich the local and international community, preparing its students for a cosmopolitan, multicultural and increasingly technological future.

The IS Monza study programme includes the elementary and middle school cycles. As from the 2015-2016 academic year, it will also provide High School and Kindergarten. This completion of its programmes will coincide with the inauguration of a new building, in the town centre. From 2015, this will replace the current two buildings near the Park of Monza.

IS Monza is characterized by avant-garde teaching methods that give space to students' initiatives and involves them in events of primary importance.

## INTERNATIONAL SCHOOL OF MODENA

Founded in 1998, the International School of Modena is located in Montale Rangone, a few kilometres from the city centre. It hosts children and young people in a campus surrounded by green. Its structures and equipment are in the avant-garde. IS Modena provides an international and multicultural educational experience, ensuring a complete academic programme from kindergarten to high school.

The opening of the High School in the 2013-2014 academic year, alongside the existing kindergarten, elementary and middle schools, means that IS Modena can now provide a consistent, structured and complete educational programme for its students. In September 2015, the new wing of the campus dedicated to the IB Diploma will be inaugurated.

## INTERNATIONAL SCHOOL OF SIENA

The International School of Siena was created in 2010 and is located in the attractive Villa Parigini, at Monteriggioni, surrounded by the green Tuscan countryside. The serene environment and the international atmosphere encourage high-quality interaction between students and teachers. As well as developing a deep and solid reciprocal awareness, this inspires natural learning of the English language, a strengthening of cognitive skills and the emergence of a truly global perspective.

The IS Siena academic programmes accompany its students from kindergarten to the end of middle school.

**IS Milan, Monza, Modena and Siena, together with the Liceo Linguistico Internazionale and Oxford Group, are part of the ISE (International School of Europe) Group**, which has been an Italian leader in language training for over fifty years. It provides high-level international education to children and young people from the age of 3 to the that of 18. The schools are officially recognized and use the programmes of **IB**, International Baccalaureate® ([www.ibo.org](http://www.ibo.org)). This is the most important no profit organization for international education, with headquarters in Geneva. Its programmes have been adopted by over 3,900 schools in 147 countries and are followed by almost a million students all over the world.
